

## Touch guide

"Touch guide" shows you operation methods and other information when you place the cursor over(or tap on the touch screen) touchable points. Impossible operation at the time is displayed in translucent.

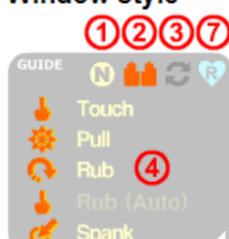

You can select "bar" or "window" style from [Global settings](#).

### • Bar style

1. Touch mode indicator : Indicates the status of [Touch mode](#).(normal, hold, auto)
2. Double mode indicator : Indicates the status of [Double mode](#) pattern.(interlocking motion pattern in both hands) - only the parts having left and right.
3. Auto mode indicator : Indicates the status of [Auto mode](#) pattern. (motion pattern in "auto mode")  
Putting together above, it's called "S-part indicator", [S-part](#) means the parts which is available special functions such as breasts and buttocks. "S-part indicator" is displayed only when placing the cursor over S-part.
4. Operating instructions : This area shows you available actions and operating instructions with "Touch icons".
5. Bar-position button : You can select Touch guide position from top or bottom on the screen. (swap for the subtitle)
6. Icon instructions button : Display the instruction of "Touch icon" and all indicators.
7. Emo-mode indicator : Indicates the status of [Emo-mode](#).(Lovers, Ecstasy, Reject)

### • Window style
